cc: Expert Group for the Development of an OECD workshop on cost-benefit assessment of chemicals management

Dear colleagues,

In November, both the Joint Meeting of the Chemicals Committee and Working Party on Chemicals, Pesticides and Biotechnology as well as the Working Party on Integrating Environmental and Economic Policies discussed the outcomes of the July Workshop on Socioeconomic Impact Assessment of Chemicals Management and supported the recommendations for future work at the OECD.

To advance upon the implementation of the two main recommendations, we are looking for additional experts to participate in the following:

**1) Establishment of a regular, on-going forum to share risk management case studies, including risk management approaches and associated socioeconomic impact assessment, to inform decision-making**

The first step in implementing this recommendation is a follow-up **workshop to compare cases in 2017**.

We propose to reactivate the expert group convened to help with the organisation of the 2016 workshop (list attached), however please indicate if you wish to **nominate additional experts**

**for the organisation of the 2017 workshop.** A call for participants to the workshop will follow. The structure of the regular, on-going forum will be further elaborated after the 2017 workshop.

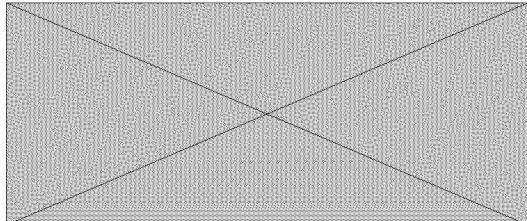

**2) Conduct coordinated valuation studies in relation to morbidity and environmental endpoints relevant to chemicals**

The first step in implementing this recommendation is to establish a project team with experts nominated by the Joint Meeting and the WPIEEP.

I would therefore like to ask you to **nominate experts to be involved in this project team.**

Please send your nominations by 20 January, 2017 to Eeva Leinala ([eeva.leinala@oecd.org](mailto:eeva.leinala@oecd.org)) and Nils Axel Braathen ([Nils-Axel.BRAATHEN@oecd.org](mailto:Nils-Axel.BRAATHEN@oecd.org)) indicating if the nomination is for activity 1) or 2) above.

Yours sincerely,

**Bob Diderich**
